

SoCal Fluids XVIII

Saturday, April 19, 2025

University of Southern California

The Eighteenth Southern California Flow Physics Symposium (SoCal Fluids XVIII) aims to bring together researchers **throughout Southern California**, working in all areas of fluid dynamics, for a one-day exchange of ideas in an informal and collaborative atmosphere.

To promote education and exposure, **talks are invited from graduate students and postdocs**. Undergraduate students and faculty are highly encouraged to attend.

For **abstract submission instructions** and more information, please visit:
